Boosting
Skin's Natural
Protection

Slowing Down
Skin Aging

What is EMFUSION?

EMFUSION is the only procedure utilizing patented DYNAMiQ technology and a specially formulated blend of active substances to reactivate formation of skin barrier - skin's natural shield against external stressors and accelerated aging.

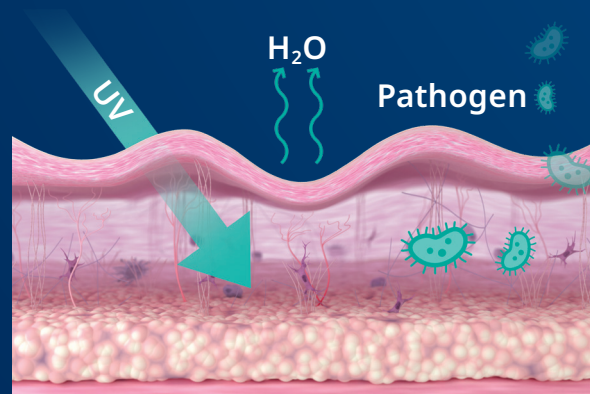

DYNAMiQ
Technology

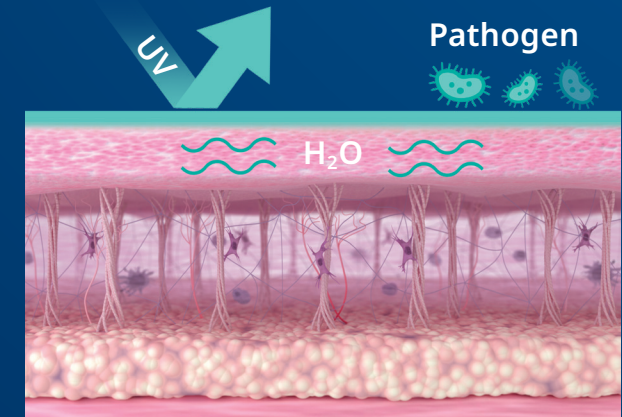

Active
Ingredients

Before EMFUSION:

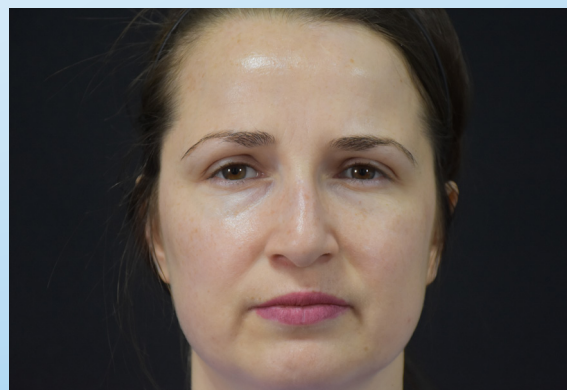

After EMFUSION:

A weakened skin barrier exposes skin to external stressors like UV, bacteria, and pollution, accelerating aging. Maintaining its strength is key to skin longevity.
